MAKING YOUR VISION COME TRUE, THAT IS WHAT WE DO

ABOUT US

We are highly honored to introduce to you ACCURATE Contracting CO.W.L.L. and our expert services. Our organization is established with a clear vision of offering high quality services to our esteemed customers. We have credibly proved our best in every project we have under taken with our clients in the Oil, Gas and Civil sectors. Also, we proven our capability to execute various Government and Private sector projects in Kuwait.

Our construction activities have proved to our existing clients that we deliver quality in a stipulated time frame. We have also established ourselves as reliable suppliers of construction materials, machinery and equipment for the Oil, Gas and Civil sectors.

Customer satisfaction is our prime motive and we believe in long term relations with our clients.

We are glad to meet prospective customers who want qualitative services at competitive prices.

ENVIRONMENT FRIENDLY

VISION & MISSION

We aim to be our esteemed customers most preferable choice as a stamp of quality in our chosen area of services. We aspire to be a leading construction company in Kuwait with honesty to create opportunities for our people and leave legacies we are proud of as the most reliable source for the services we offer and build relationship with trust and ethical values.

QUALITY POLICY

Quality at Accurate means satisfying clients on every project we execute. Our policy is to achieve client satisfaction through the management of our work processes, with due attention to value creation through scope, schedule, cost control and with emphasis on safety and the environment. Quality is an integral part of every aspect in our business. A quality plan addresses the specific needs of the client, key technical features and execution measures to ensure success and a monitoring plan to deliver results. The quality control plan incorporates appropriate methods to obtain feedback from the client during project execution for measuring and monitoring client satisfaction.

Documentation and archiving systems are implemented to ensure compliance with legal, contractual, and quality control requirements. Each division shall perform a management review of the quality control, evaluating its effectiveness in areas such as compliance with corporate quality policy, procedures, customer satisfaction and continuous improvements.

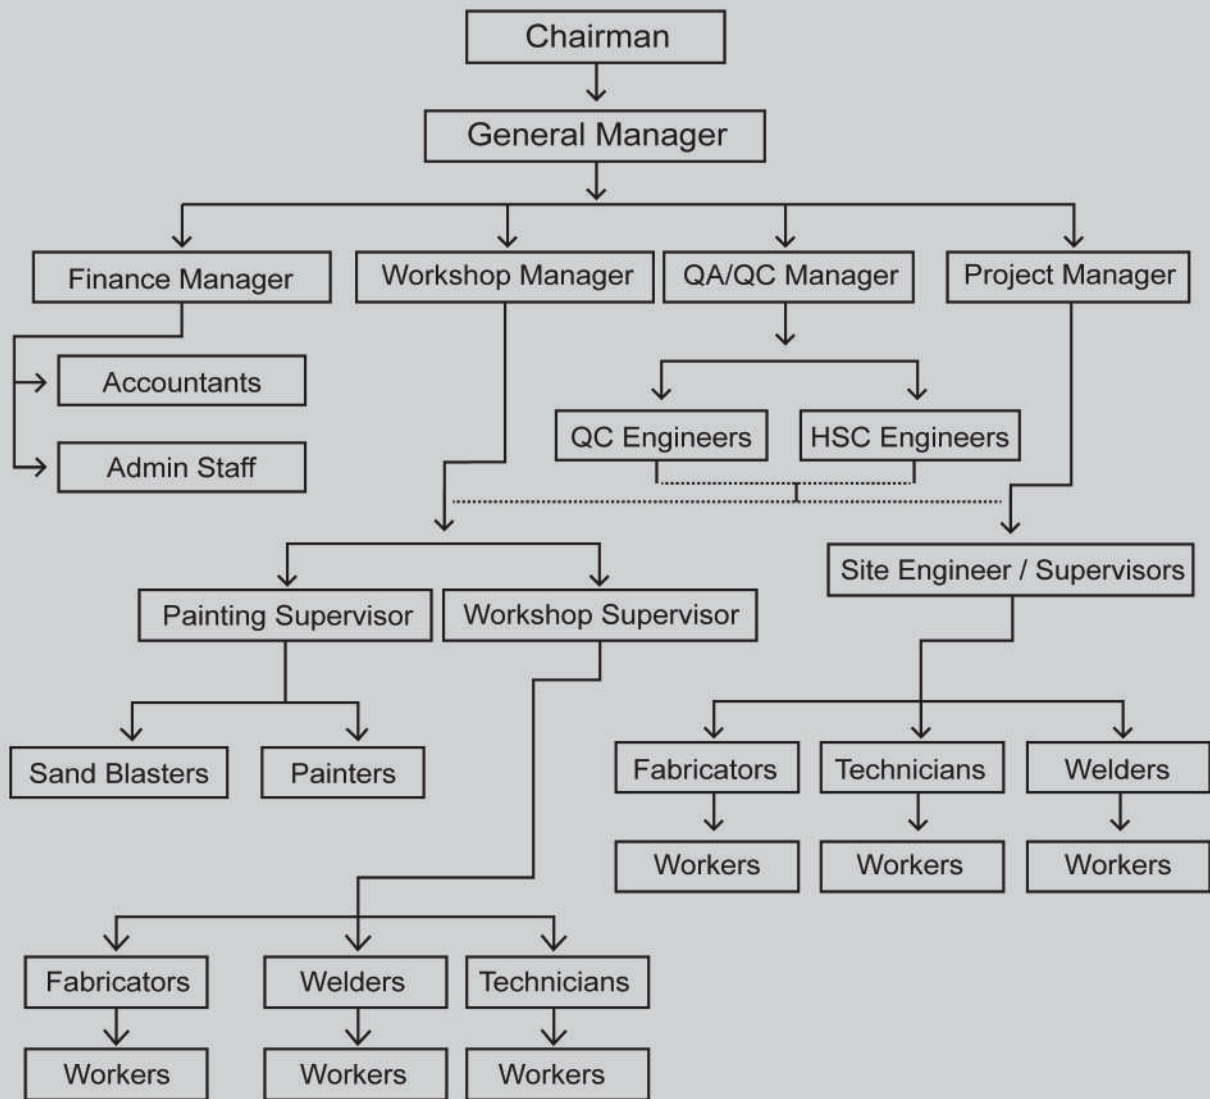

HSE POLICY

Our clients, employees and partners share a common goal - Safety is a paramount. We believe in working in harmony with nature through continuous improvement in providing safe healthy workplace in a systematic manner while complying with applicable occupational health and safety legislation and regulation. In addition to benefiting our employees through reduced injuries and lost work. Our commitment to safety is a leading indicator for our clients of strong performance throughout the project life cycle. The basis for health, safety and environmental programs is that accidents causing injuries or illness to personnel or impact on the environment are preventable. Its everyone's obligation to prevent accidents and all personnel are expected to conduct business in a manner that actively integrates the elements of the Health and Safety program into applicable aspects of company's division operation.

Our goal of health and safety program is zero accidents; therefore, accident prevention continues to be of paramount importance to the firm. Safety takes precedence over expediency. We are committed to compliance with all client health, safety and environment requirement as well to applicable regulations. We have established procedures that provide direction on health and safety to all employees. These procedures are periodically evaluated considering current case law, new regulation, and emerging industry practices.
